## STANLEY STEEMER

*The Number One Name In The Industry*

For more than 60 years, **Stanley Steemer** has been bringing cleaner, more comfortable homes to America. Starting from a humble, one-man, one-truck operation, they've done pretty well—all because they're driven to deliver the best, and proud to stand behind every service 100%. From carpet, tile, grout cleaning, emergency water restoration services, and air duct cleaning, they do it all! **Stanley Steemer** understands that on a daily basis, your flooring, furniture and ducts encounter dust, dirt, and allergens. Over time, these contaminants that build up in your heating, ventilation, and air conditioning (HVAC) system can trigger allergies and reduce energy efficiency. **Stanley Steemer** will then recommend a customized cleaning and maintenance program.

With the unpredictable nature of water intrusions, any property is susceptible to water damage—anytime. When you experience water damage to your commercial property, minimizing down time and getting back to business are your top priorities. They are also available to service your emergency residential needs. Their fully trained IICRC certified water damage technicians use state-of-the-art water extraction and drying equipment to resolve your damage quickly.
